Queensland solar farm.

A windmill under construction. Credit to Arsineh Houspian.

An aerial photograph of a vibrant coral reef. The water is a brilliant turquoise blue, and the coral structures are visible as darker, textured patches of brown and grey. The reef extends from the bottom left towards the top right of the frame. A dark grey rectangular box is centered over the middle of the image, containing the text 'Thank you' in a light green, sans-serif font. To the right of the text is a small green circular icon containing a white leaf symbol.

Thank you
